

# MAXIMIZE YOUR BUSINESS DATA SECURITY MEASURES WITH DataMask

DataMask enables your business to easily and comprehensively anonymize sensitive personal and business data stored in Deltek Costpoint to enhance the protection of critical information. Fully configurable, you can restrict visibility to core staff while still allowing developers and other third-party collaborators to develop Costpoint solutions using the masked data.

A powerful must-have tool for any business working with Personally Identifiable Information (PII), DataMask ensures you're prepared to meet the increasingly stringent data security and privacy requirements imposed by Federal regulations—and expected by your employees, clients and collaborative partners.

## KEY BENEFITS:

### RESTRICT VISIBILITY OF SENSITIVE DATA

Configure which users can or cannot view critical data in Deltek Costpoint

### ENABLE SECURE PROJECT COLLABORATION

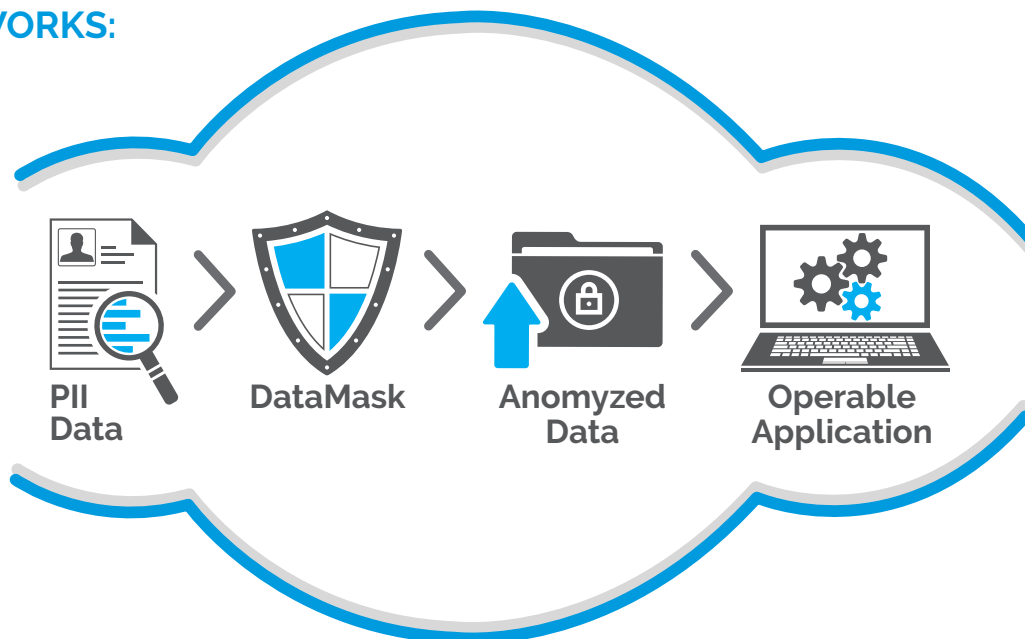

Create functional development and service environments without exposing PII

### MEET DATA SECURITY & PRIVACY REQUIREMENTS

Ensure your business is in compliance with Federal privacy standards in case of audit

## HOW IT WORKS:

## ABOUT INFOTEK CONSULTING

We are an award-winning Deltek Premier Partner specializing in Deltek Software solutions, consultings and implementation to help businesses improve performance and achieve a higher ROI.
