UNITE YOUR BUSINESS SYSTEMS WITH  
COSTPOINT THROUGH

# DataWizard

DataWizard enables your business to efficiently bulk upload and sync data from third-party applications and custom in-house systems directly into Deltek Costpoint—quickly and easily, minimizing manual data entry tasks across any department.

Compatible with popular applications that utilize Microsoft Excel file formats, all data integrations are executed against your existing Costpoint business rules and data validations to ensure central control over data integrity. Your business can ultimately facilitate faster and more accurate data processing between once-disparate systems to streamline and unify operations—without burdening IT resources.

## KEY BENEFITS:

### INTEGRATE DATA FROM THIRD-PARTY APPLICATIONS

Bulk upload and sync third-party data into Deltek Costpoint utilizing Microsoft Excel formats

### MAINTAIN ACCURACY BETWEEN SYSTEMS

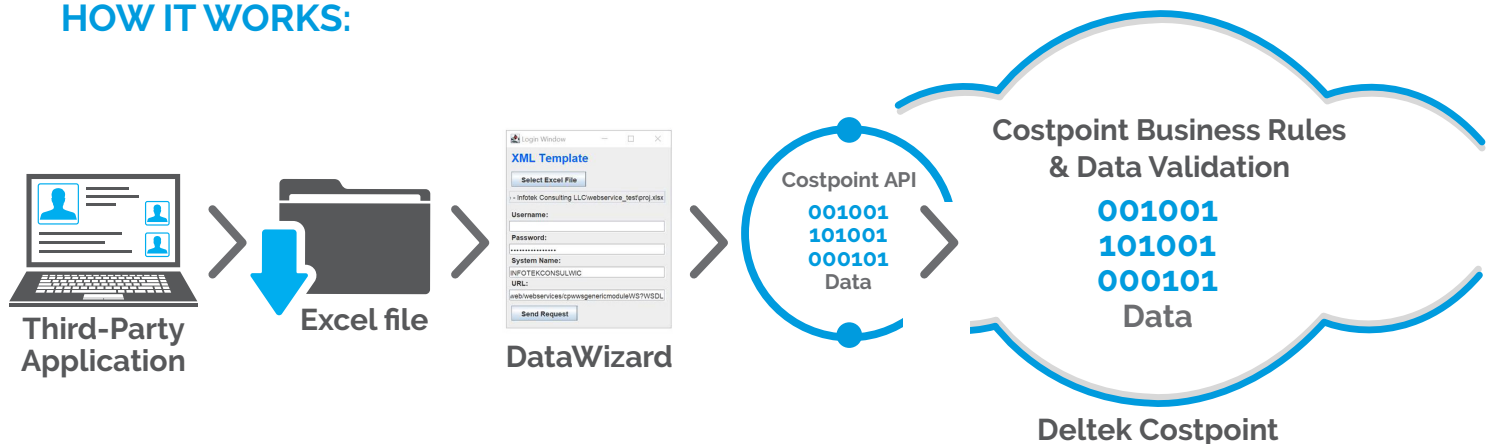

Enforce Costpoint data integrity and validation rules across automated data loads

### STREAMLINE COSTPOINT MODULE TESTING

Automate implementation, from configuration screen setup through load and performance testing
